## About Flutr

**Flutr specializes in designing social skills workshops and social events on the foundations of improv.**

We design:

- 1. Hangouts / Mixers** – for connecting people with one another
- 2. Workshops** – for personal growth and communication
- 3. Retreats** – to foster in-depth skill learning and connections
- 4. Custom social experiences** – catering to any audience and requirement

Flutr's mission is to make social skills and social interactions fun, engaging and easy for everyone.

## Why Flutr

“Flutr’s vision comes from a lived experience. For a large part of my life, I was not seen, not heard and the sheer lack of skills to attract people and opportunities made things difficult.

Thankfully, over a decade long practice in improv, I’ve developed the tools to understand people, add color to my interactions and also learn the skills of spontaneity, storytelling and humor which have made it easy for me to build connections and win people’s trust. “
